PROJECTS

IBSAid | Download on the App Store: IBSAid App

SwiftUI · SwiftData · Animations · Charts

An app designed for people with IBS and IBS related issues to track food, bowel movements, and manage stress with guided breathing. Features include animated breathing exercises, a calendar based bowel and symptom log, and an easy-to-read food journal.

Pawgress | View on GitHub: Pawgress App

SwiftUI · UserDefaults · JSON

A playful wellness app that encourages self-improvement through small daily tasks. Users choose a pet companion to support their progress as new tasks unlock. Pawgress focuses on a fun, functional, self-paced structure to better both the user and their virtual pet.

Automated Newsletter

Next.js · Vercel Cron · Neon · Resend · Claude

Built a fully automated monthly newsletter system for a tattoo studio, reducing production from hours of manual work to automated delivery saving an estimated \$1,000+ in billable time per month.

EXPERIENCE

Lobi Software Studio · Software Developer

06/2026 – Present

Remote

- Collaborate with a team to gather requirements, then design, build, test, and deliver client-facing features on a per-sprint basis.
- Work autonomously in a remote environment, developing across the full stack using modern frameworks including Next.js, Vercel, Neon, and React Native as project needs evolve

AUMC · Media Team Lead

07/2024 – Present

Auburn, AL

- Lead AV and livestream production for weekly services, managing full setup and live production
- Oversee team schedules, volunteer recruitment, and overall service quality for a congregation of 100+ attendees

Auburn University

Auburn, AL

Lucky Man Studio Assistant

08/2023 – 05/2024

- Supported and ran client sessions independently; built and maintained studio equipment
- Took initiative to learn and apply digital tools and project workflows in a professional studio environment

Recording Technician

08/2023 – 05/2024

- Supported and ran client sessions independently; built and maintained studio equipment
- Took initiative to learn and apply digital tools and project workflows in a professional studio environment

EDUCATION

Auburn University

May 2024

Auburn, Alabama

Bachelor of Music in Composition and Technology · GPA: 4.0
